

VOICE, CHOICE, AND CONTROL FOR BUSINESS.

Orion Push to Talk is a secure push-to-talk (PTT) app for organizations of any size who want to use voice as a tool to enhance team productivity, efficiency and security – without device and network limitations.

Mix and match

Control group permissions

S Communicate

Increase Productivity

- Instantly connect with teams using push-to-talk (PTT)
- Talk anytime, anywhere, and on any device
- Translate languages instantly
- Automate business tools and devices using IFTTT

85% of teams want to use voice tools at work

Communicate Securely

- Know who's online and who's talking
- End-to-end encryption eliminates third party access
- Control a range of permissions and privacy settings
- Control speaking and listening modes for groups
