

Construction Communications

Real-Time, Heads-Up Communication for Accelerating Project Delivery & Improving Worker Safety

Orion helps construction firms save time and get more done. Construction teams choose **Orion Pro** for

- **Push-to-talk** over unlimited distances
- **Real-time location** of teammates
- **Choice of devices** to meet your team's needs
- **Voice-activated bots** and commands
- Communicating **across language barriers**
- Checking in with crews at **different job sites**

Voice Bots & Commands: A Force Multiplier for Your Team

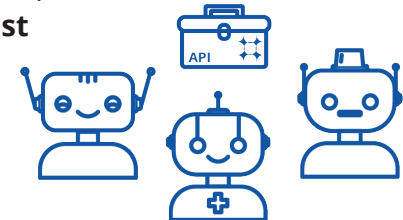

Your team can accomplish more, faster — with Orion-powered bots.

Orion's bots help you improve operational efficiency with **your voice, something you won't find in traditional communication solutions**. Use voice for simple or complex queries or automations, without waiting for people to respond.

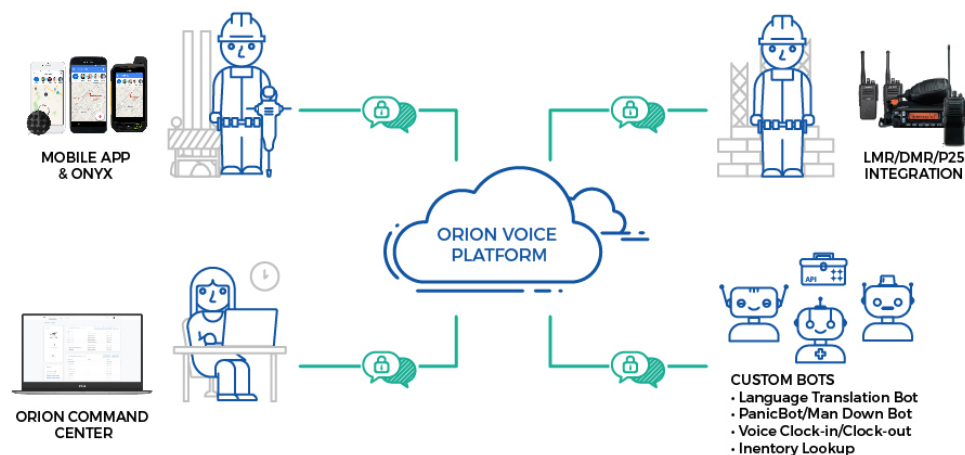

Voice bots and commands help your organization focus on tasks that matter.

Orion Bot Examples:

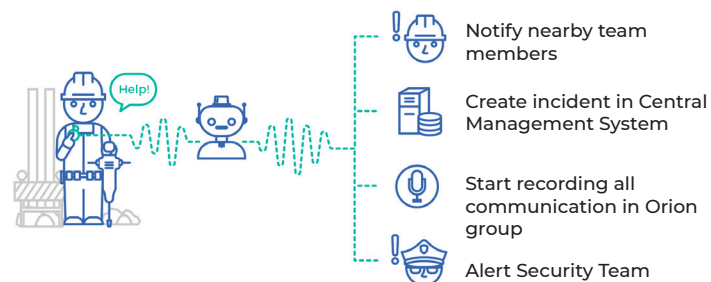

- **Panic Bot:** automate emergency workflows
- **Voice clock-in/clock-out**
- **Translator:** Real-time language translation
- **Inventory** look-up
- **Safety checklist**
- Much more!

Apps, Devices, and Bots That Fit Your Construction Firm's Needs

Sample **Panic Bot** workflow:

“Engineering and construction companies and project owners who invest in disruptive technologies should enjoy a step change in performance.”

—KPMG GLOBAL CONSTRUCTION SURVEY

PUSH-TO-TALK

Communicate across any distance — over any data network, including Wi-Fi — using Orion’s walkie-talkie apps or wearables.

Orion Pro: groups of unlimited size

ORION COMMAND CENTER

A powerful administrative tool for managing worker communications — create and update groups and users as needs change, set permissions and more.

Orion Pro feature

VOICE COMMANDS

Set up your own voice-powered notifications or automations between your other tools and services. Custom integrations also available — contact us.

Custom integrations: Orion Pro only

ORION TRANSLATOR
